01/2025 - 02/2026
14 months
per project

BUDGET
750 K€

GRANTS
150 K€
per project

Wehubit (Enabel's Innovation Hub) focuses on **public institutions** and other **"not-for-profit" actors** such as academia, Civil Society Organisations, Non-Governmental Organisations (NGOs) and Social Enterprises.

The **objective** of this Call for proposals is to identify and support digital and green innovations that are ready or transitioning to scale. In doing so, it aims to increase the use of and access to digital solutions as a vehicle to tackle environmental challenges such as climate change, while contributing to inclusive and sustainable development in the partner countries of the Belgian development cooperation.

What the Call for Proposals will offer ?

Support will be given in the form of grants, specific technical support and capacity building activities, to **not-for-profit actors** such as public institutions, academia, Civil Society Organisations (CSOs), Non-Governmental Organisations (NGOs) and/or Social Enterprises.

Geographic scope

This Call for proposals is open for the 13 partner countries of the Belgian development cooperation: **Senegal, Morocco, Mali, Burkina Faso, Niger, Benin, Guinea-Conakry, Mozambique, Burundi, Uganda, Tanzania, Rwanda and Democratic Republic of Congo.**

Thematic scope

This Call for proposals aims to identify and to support the scaling of digital and green innovations in Africa. Wehubit defines digital and green innovations under this Call as solutions that leverage digital tools and/or technologies to contribute positively to at least one of the following environmental objectives: climate adaptation, resilience, mitigation, protection and restoration of biodiversity and ecosystems, sustainable use and protection of water and maritime resources, environment and water resources, pollution prevention and reduction, resource efficiency and systemic shifts like the circular economy.

The thematic priorities of Enabel and its partners are the following :

- **Climate-Smart agriculture and sustainable food systems**
- **Resilient cities and sustainable urban planning**
- **Water management/floods prevention**
- **Circular economy and e-waste management**
- **Sustainable, affordable and clean energy**

Budget

The total indicative sum available for Enabel's Call for Proposals is 750.000 EUR. Projects can request a maximum of 150.000 EUR.
